Warrior Payments ramps up with Sales Funnels

Sydney: 1st October, 2014: Warrior Payments, Warrior Forum's official payment, distribution and product delivery platform, has introduced state of the art sales funnels allowing users to maximise product revenue by offering upsells and downsells.

This in-demand feature- built in direct response to Warrior Forum customer feedback- is set to attract high-end vendors and product creators. These high-end vendors regularly generate six-figure revenue within days of a product launch by using sales funnels that offer customers the ability to purchase additional products.

Warrior Forum General Manager, Alaister Low said, "We have worked with the top Internet marketing experts on Warrior Forum to design the ultimate sales tool for affiliate marketers. The new Sales Funnels feature will allow all vendors to maximise their revenue from their customers and revolutionise the way they make money online."

Warrior Payments Sales Funnels allows vendors to offer unlimited upsells and downsells to their products through an intuitive, user friendly interface. Additionally, vendors can customise Affiliate Commissions, Dimesales and Timesales for each individual product in their sales funnels.

Creating sales funnels will no longer be a tedious process, where vendors part with up to 7.5% gross revenue using other platforms. Warrior Payments solves this problem by offering customers a solution that is easy to use while still being the most inexpensive payment solution in the industry, charging only a 2% flat fee.
